

**CLEAN  
AND PROFILE —  
NO SHOTBLASTING  
REQUIRED.**

Maxxon<sup>®</sup> Commercial Profile is the time-saving, dust-free innovation for cleaning and profiling concrete without shotblasting or grinding.

- Easy, spray-pump application
- Achieve CSP 1–4 without shotblasting
- Dust-free removal of densifiers, dirt and efflorescence
- Biodegradable, cleans up with water
- Lowers concrete surface pH

**WHERE TO USE**

*Application*

Above-, below- and on-grade concrete.

*Subfloor*

Interior old, new, compromised and chemically abated concrete.

**CSP**  
**1-4**

**NO DUST. SUPERIOR PREP.**

Maxxon Commercial Profile outperforms shotblasting on every level. This environmentally safe, specially formulated liquid quickly and effectively removes densifiers, dirt, efflorescence and other contaminants from concrete in as little as 15 minutes after application.

Easy spray application and water cleanup make it less labor intensive and more affordable than shotblasting. Maxxon Commercial Profile allows you to achieve perfectly prepared concrete without the dust and dangers of abrasive shotblasting and harsh chemicals.

**PRODUCT INFORMATION**

<b>VOCs</b>	0 g/L
<b>Dwell Time</b>	15 min. for surface cleaning 2 hrs. (approx.) to CSP 2
<b>Application Temperature</b>	40–90 °F (4.4–32 °C)
<b>Coverage Per Application</b>	225–250 ft <sup>2</sup> /gal (5.5–6.1 m <sup>2</sup> /L) or 900–1000 ft <sup>2</sup> (84-93 m <sup>2</sup> /L)/pail

**INSTALLATION & LIMITATIONS**

See technical data sheet available at Maxxon.com for complete installation instructions and limitations.

**PACKAGING**

4 gal (15.1 L) pail

**PRO TIP**

Agitating with stiff-bristled broom 15 minutes after application will help the process.

Profile can be applied two times for a final high CSP profiled surface.
